Sweet Remembrances.

"Let Fate do her worst; there are relics of joy."

Bright dreams of the past, which she cannot destroy.

And which come in the night-time of sorrow and care.

To bring back the features that joy used to wear.

Long, long be my heart with such memories filled:

Like the vase in which roses have once been distilled.

You may break, you may shatter the vase if you will,

But the scent of the roses will hang round it still."

First in The South.

At a meeting of the Kentucky Association for the Study and Prevention of Tuberculosis in Louisville last week, the Secretary, Mr. Kerner, announced that Kentucky is the first State in the South to take up the fight against the white plague.

As is known, Mrs. B. L. Bank of this city, is a member of the Kentucky Association.

New Way to Break Ground.

J. H. Caldwell, a farmer near Spartanburg, S. C. broke up an acre of ground with 800 charges of dynamite, the explosive being used instead of a plow.

Mr. Caldwell claims that blasting land with dynamite is the best method for subsoiling and that it can be done more cheaply than by manual labor. Many persons from the city and country were present to witness the experiment.

Three Men Dead.

Three men are dead as the result of a fight between C. A. Jones and Jefferson Wilson at Heidelberg, Lee county, Saturday night. Two men were wounded and three more received slight wounds as the result of a fight which took place in a newly opened "milk stand" operated by Dudley Lewis at Heidelberg, a station on the Louisville and Nashville railroad, six miles below Beattyville.

Prof. Crabbe Will Encourage Athletic Sports.

President J. G. Crabbe, of the Eastern Kentucky Normal School, while here Saturday, stated that he has taken up the active work of the presidency of the institution. He will encourage all kind of athletic sports and from this year on the school will be represented by a base ball and football team. Prof. Crabbe says that Richmond is such a hating place that it is impossible for him to get a house to live in—Frankfort Journal.

Moonshiners Caught In Jackson County.

United States Marshal William Mays and Collector W. T. Short caught Pen Taylor, Lee Taylor, Robert Peters and Charles Lewis in the act of making moonshine liquor Saturday night in Jackson county and took them to jail at Beattyville Sunday. They had a pretty hard time in getting Lewis, as he is reported to be one of the worst men in the mountains, he being wanted by the civil officers on a murder charge. The officers had to strike him on the head with a pistol and knock him down before he would give up.

He's a Thief.

Some people seem to think that if they find goods or money, all they have to do is to keep the same until some one advertises for it, and if no one advertises they can convert the goods or money to their own use. This is not the law, and those who do not comply with the law may subject themselves to prosecution for larceny. Those who find money or goods have a duty to perform and the law provides that they must perform this duty promptly. We have known of many instances where people would hold goods from the rightful owner in order to get a small reward for being honest (?) in coming forward when a reward was attached to the notice.

An Intricate Case.

Some time ago Robert Humphries, of Sharpburg, stole a lot of cattle in that section and sold them to Mr. Martin, of Fayette county, who in turn disposed of some of them. Humphries was caught in the act of stealing another lot and was sent to the penitentiary from this city for the latter crime. After that the owner of the first lot, found a part of his cattle and Martin paid him for them. Humphries had a crop of tobacco at home and Martin attached it for money he had paid on the stolen cattle. Another man claimed to have bought the tobacco, and the matter was tried before Judge Benton, who ordered that Mr. Martin be reimbursed for the stolen cattle out of the proceeds of the tobacco crop—Whitewater Democrat.

Balked at Dog Tax.

Saturday, Deputy Sheriff Ernest Martin arrested Preston Craig, a negro, for refusing to pay tax on a dog, which it is alleged he owned. In Justice J. L. Fretwell's court he was fined \$1. and costs, aggregating \$2.—Paris Kentuckian-Chronicle.

If every man in Madison county failed to list his dogs and pay taxes thereon should be fined in proportion to above, the surplus, after paying in full all damages for sheep claims, would be sufficient to erect several modern school buildings.

Have You \$34.87?

Have you \$34.87 in your pocket or in the bank? If you have not then you are shy on the per capita circulation of money in the United States, as shown by the books of the Treasury Department, in reaching this calculation, estimates the population of the United States at \$9,883,000, and announces the amount of money in circulation on March 1, as \$3,124,003,250, which, if equally divided, would give every man, woman and child in the country \$34.87. There is in circulation today \$40,315,244 more than there was a year ago.

One Man's View.

The newspapers' comic Sunday supplements that picture hayseeds and birds' nests in farmers' beards and in the fun of the hairy-handed agriculturists are responsible for the high prices of food stuffs according to John A. Stewart, a New York manufacturer, who testified before the legislative committee investigating food prices. Mr. Stewart said the comic supplements ridicule the farmer in his work and so drive the farmers on to the cities. So few farmers are left to raise crops that many farms are being abandoned. The only older people remain on the farms and little food in excess of what is needed there is being produced. So it is now comparatively easy to corner the market on many food commodities. He declared the situation is alarming and should be changed by making farm life more attractive.

Modified Pledge Wanted.

A movement has been started among the growers of Scott county to have the Burley tobacco pledge amended so as to be more satisfactory to the growers. Among some of the points made prominent are those: The Board of Directors shall keep only money enough to pay legitimate expenses, the remainder to be sent to the County Board of Control in ten days and the latter pay it out to the growers in ten more days; next the growers be allowed to ready, grade and prize their own tobacco provided they will have a good grade to sample it fairly; next that the pool be declared off if eighty per cent of the crop is not pooled by October 15th, that any grower who pools and then sells his tobacco shall forfeit one-fifth of its value to the Society.

Enemy of Potato Bugs.

There appeared in some parts of Indiana last season, a small bug with variegated wings, which destroyed thousands of potato bugs. A half dozen bugs will quickly kill 100 or more of the potato bugs on a single plant. Specimens have been sent to the government for examination.

The New Baby.

A small Elkton boy was once called in to view his new-born baby brother. He looked it over with dissatisfaction and finally asked: "Mamma, where did this thing come from?" "An angel brought it, Jimmie." "Wuz you awake when he came?" "Certainly, Jimmie."

"Well, then, Mamma, all that I have got to say is that you are dead easy. I'd like to see any old angel put such a looking thing on me. But I reckon we are stuck unless I kin work Johnny Green to trade sight unseen for one of his spotted pups."

Test Your Seed Corn.

The climatic conditions which prevailed during the last weeks, last summer, while the corn crop was ripening, were of such that, despite the great size of the crop, it is found difficult to secure seed corn in sufficient quantities, the remaining power of which can be relied upon. Seedmen and farmers are having the same experience.

It becomes every farmer, then, who expects a fair crop of corn next fall, to exercise unusual care in the testing of "his seed. He should not only select the corn, but should also test it early by ear. He will very probably be surprised at the number of ears he will have to reject as non-germinating. He may even find that he cannot, from his own selected ears, get a sufficiency of reliable seed. But there should be no foolish "risking it" in planting it without testing. Better undergo a large amount of trouble and save much expense, than invite failure of the crop by planting at a venture. It is just such emergencies as this that the "new farming" venture proves its superiority to the old.

Bids for Pike Work.

Notice is hereby given that W. R. Shackelford, County Judge, as directed by the Fiscal Court, will receive at his office up to and including May 2nd, at 5 p. m., sealed written proposals for napped stone of approved quality and size to be spread upon the various sections of turnpikes in Madison county, with sufficient dirt to hold same in place, for the year 1910. Bids to be made by the road spread on pike at places to be designated by Road Supervisor. Amount not to exceed appropriation hereafter to be made. Also ditching by the road.

Contracts to be made with successful bidders with approved security. Contracts to be let to the lowest and best responsible bidders. The Court reserves the right to reject any and all bids.

Potatoes Sell For a Song.

Many of those who raised big crops of potatoes last year and stored them away expecting a bigger price in the winter or spring, have been sorely disappointed as the spuds are now worth very little on the market. Many crops sprouted so badly in storage that they have been sold for hog feed at a mere song. Thousands of bushels have been put to this use, and there's money in it, with porkers bringing eleven cents a pound.

What It Will Do.

Let the young man about town out of a job try a year on the farm. Plowing will give him a new constitution, take the kinks out of his head, the frog out of his throat, the gas off his stomach, the weariness out of his legs, the corns off his toes, and give him a good appetite, an honest living and a sight of heaven.

Point Out the Cut You Want

and it is yours. We have no e-specialty choice cuts reserved for particular customers. All our meats are choice and we treat everybody alike at this market. So don't stay away because your meat purchases are small. We take as much pleasure in serving the small buyer as the big one. Maybe your family will be large some day.
